PORTFOLIO

- <https://bold.pro/my/vishalsinh-parmar-250103144356>

PROFESSIONAL SUMMARY

Dynamic and detail-oriented **MERN Stack** Developer with a proven track record of building and managing full-stack web applications. Skilled in delivering optimized, scalable solutions using the latest technologies such as **React**, **Node.js**, and MongoDB. Enhances system performance and user engagement through innovative design and development strategies. A strong problem-solver who consistently delivers high-quality results.

SKILLS

Frontend Development:

- **Tailwind CSS**, Bootstrap, Material-UI (MUI), SASS, Vite
- Node.js, Express.js, **MongoDB**, Mongoose
- Git, GitHub, GitHub Actions, **RESTful APIs**, JWT Authentication
- **Adaptability to change**

- HTML5, CSS3, JavaScript, **React**, Redux Toolkit (**RTK**)

Backend Development:

Tools & Technologies:

- **CI/CD** Pipelines, Nodemailer, Payment Gateway Integration (**Razorpay**)

PROJECTS

1. Food Delivery System with Admin Dashboard 2. Blog Web Application

- **URL:** <https://food-delivery-mern-project-ymuw.vercel.app/>
- **Description:** Developed a full-stack e-commerce food delivery platform with an admin dashboard for product, category, and order management.
- **Key Features:** **JWT-based** user authentication and email verification using **Nodemailer**
Secure payment integration with **Razorpay SDK**
Real-time order tracking and seamless frontend-backend communication
CI/CD implementation with automated testing and deployment using GitHub Actions

2. Blog Web Application

- **URL:** <https://blog-frontend-r6xa17h3t-vishalsinhparmars-projects.vercel.app/>
- **Description:** Created a secure blog platform with user **authentication** and comment management.
- **Key Features:** JWT authentication with token expiration handling
RESTful API communication for secure data transfer
Interactive user engagement through comment sections

WORK HISTORY

FEBRUARY 2024-JANUARY 2025

Real Word Project | TOPS Technology | rajkot

- Built a feature-rich e-commerce food delivery platform handling 100+ product listings daily.
- Enhanced platform performance, managing 500+ active users through optimized queries.
- Streamlined payment processing by integrating secure payment solutions.

MAY 2023-OCTOBER 2023

Frontend Developer Intern | Bxinfotech | Diu, India

- Developed and maintained responsive user interfaces using HTML, CSS, and **JavaScript**.
- Built reusable components and interactive UI elements to improve user experience and interface functionality.
- Collaborated with backend teams to integrate **RESTful** APIs for dynamic content rendering.
- Assisted in initial implementation of React components to optimize frontend development and improve scalability.
- Ensured cross-browser compatibility and optimized page load times for improved performance.

EDUCATION

JULY 2020-MARCH 2023

Bachelor of Science: Science Education

Saurashtra University-Rajkot, H & H B Kotak Institute Of Science

GPA: 7.1

JUNE 2018-APRIL 2020

Science

Chanakya Science School-Una, Una, India

CERTIFICATIONS

MARCH 2023
